STAT AI / WORKSTATION SETUP

Standalone StatAI - Chrome

One-time setup on each computer

1 Open the reporting website

Launch Google Chrome

Visit https://report.statairadiology.com and sign in.

2 Open the browser menu

Click the three dots in the upper-right corner.

Choose the menu path shown below.

3 Create the standalone app

Cast, save, and share > Install page as app...

Confirm the browser prompt. Name it StatAI if offered.

4 Pin StatAI to the taskbar

Right-click the running StatAI taskbar icon.

Choose Pin to taskbar. Open StatAI from that icon next time.

If your hospital blocks standalone setup

Continue using StatAI in your regular browser. Do not bypass IT policy.

Menu labels may vary. A reset Windows/browser profile may need setup again.

Return to the setup site and complete Step 2.
